streamdf (action-angle stream model): build once, then sample / evaluate
(a) construction incl. stream track
wall time (s)
number of track chunks (nTrackChunks)
numpy (CPU)
jax (CPU, eager cold)
jax (CPU, eager)
torch: construction fails (bug)
jax.jit: construction not traceable (bug)
(b) sdf.sample(N)
number of sampled stars N
CPU: Xeon E5-2697 v4 @ 2.30GHz (4 cores)
GPU: not measured
jax 0.10.1 · torch 2.12.0+cu126
(c) log DF at N points
number of phase-space points N
jax (CPU, jit)
torch (CPU, eager; numpy-built sdf)
