Jeans: σ_r and its AD sensitivity
σ_r
$d\sigma_r/da$ (AD)
finite difference
$\sigma_r(r = 2.0)$
$d\sigma_r/da$
Hernquist scale radius a
isotropic Hernquist DF: f and its AD sensitivity
$f(E)$
$df/d\,\mathrm{amp}$ (AD)
finite difference
$f(E = -0.4)$
$df/d\,\mathrm{amp}$
potential amplitude
