(a) phase-space volume contraction
$\det M(t)$
t
Chandrasekhar friction
FDM friction ($m\hbar^{-1} = 10$)
$\exp\int_0^t \mathrm{tr}\,(\partial F/\partial v)\,\mathrm{d}t'$
(b) $|\det M - \exp\int \mathrm{tr}\,(\partial F/\partial v)\,\mathrm{d}t'\,| \,/\, \exp\int \mathrm{tr}\,(\partial F/\partial v)\,\mathrm{d}t'$
relative difference
t
Chandrasekhar friction
FDM friction ($m\hbar^{-1} = 10$)
